Department Name

Purpose of Visit

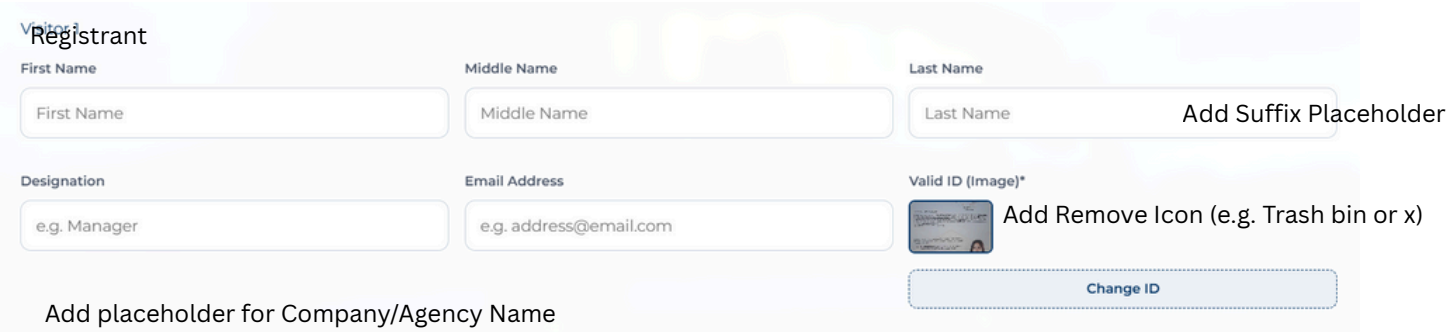
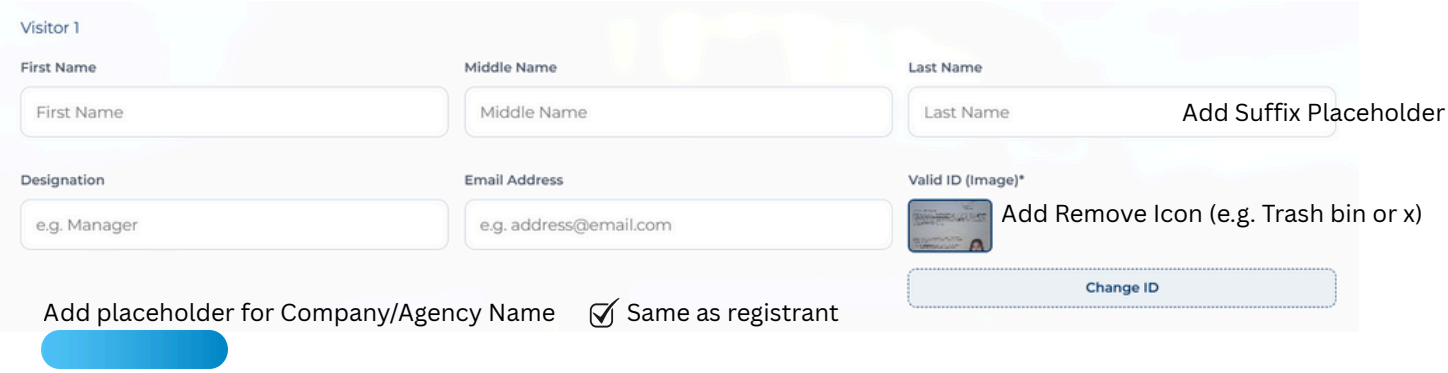
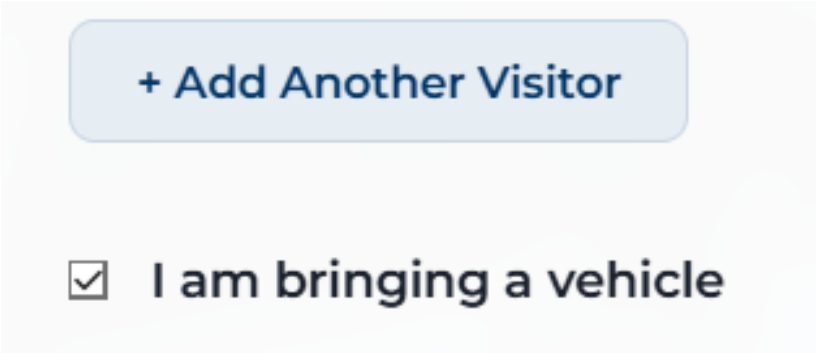
- ## Registrant  Information



- ## Visitor Information





Almost same lang yung
Registering for yourself and others &
Registering for others
pero sa Registering for yourself and others
internally considered na si Registrant as Visitor

Need to separate talaga si Registrant and Visitor
to differentiate yung dalawa.
For an instance:
Si NPO niregister niya yung taga PCO. Di naman
siya visitor, so the need to differentiate the
registrant apart from the visitors arises.
